Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The Applicant discussed ways to overcome the 112, second paragraph rejection in the previous non-final office action (mailed on May 18, 2007), and the Applicant also pointed out the different between the present invention and the Fulton reference. For example, in the present invention, the product being wrapped is positioned horizontally and not vertically like in Fulton. The examiner reminded the Applicant that claims are broadly interpreted by the limitations recited in the claims and not by the disclosure.
